Forecast for Sunday 08 Aug 2021

Weather: It will be rather cloudy with scattered showers. The showers will be heavy and prolonged at times but also some drier, brighter interludes.

Chance of cloud free mountain/hill tops above 800m: 30%

Visibility: Good at times throughout the day away from the showers, but often it will be rather misty and reducing to a kilometre or two as heavier rain passes through. There will be extensive cloud cover around 700 to 800m, but coming well down the hills as heavier showers come along.

Met Office Aberdeen Meteorologist's View

Very difficult to provide local detail for Sunday. There will be clusters of heavy showers almost anywhere across the North Grampian area. And with light winds, the showers will be slow moving so taking some time to pass by. Equally there will be drier, brighter spells too.

Forecast for Monday 09 Aug 2021

Weather: A brighter day with some sunshine, best in south of area towards Ben Alder. Further slow moving heavy showers, most frequent towards North and West Cairngorms and Monadhliath.

Maximum wind: Light winds at all levels to start the day. Then a freshening northerly wind by the afternoon, average speeds on the tops of 20mph.

Chance of cloud free mountain/hill tops above 800m: 30% in north, 60% in south.

Visibility: Good widely in south of area but frequent reductions to poor visibility in north in association with heavy showers. Clouds also extensive in the north of area but more broken further south at about 700 to 800m.

Temperature: **Glens:** 13 Celsius rising to 19 Celsius.
At 800m: 10 Celsius rising to 12 Celsius.
Freezing level: Well above summits.
